

Data Shine is a women-owned consulting firm that provides **tailored data management, mining, and meaning-making** assistance to organizations of all shapes and sizes **to inform mission-aligned strategy and action.**

## Our Capabilities

Data Shine partners with organizations to use **better data better** in order to guide **decision making and shape action.** We can plug into organizations without data or evaluation staff to support day-to-day data and evaluation needs or provide comprehensive external evaluation services. Our core capabilities include:

- Using data to build a case for programs
- Supporting program planning and development that aligns with mission
- Providing a new angle on data already collected
- Creating or improving data management systems for accuracy and efficiency
- Evaluating to inform decision making, measure quality, and understand change
- Mining for meaning in data, and communicating that meaning across audiences

## Our Collaborative Process

## Our Company + Clients

“We simply can’t recommend [Data Shine] highly enough... **Our students and other stakeholders truly enjoy working with her, and having a chance to tell their stories...** Her briefings and reports are visually engaging and easy to understand—she has an uncanny ability to distill a vast amount of information into manageable pieces that effectively convey what we’re doing well, where we can improve, and suggestions for next steps. **The CHC is so much stronger because of her work.**”
